Dumfries and Galloway Local Employability and Skills Improvement Plan 2021-22

The Dumfries and Galloway Local Employability and Skills Partnership (D&GLEP) have recently undertaken a rigorous self-assessment process to critically assess their effectiveness and establish a baseline of how well the partnership meets the ambitions of No One Left Behind and Young Person's Guarantee. The Self-assessment challenged participants to reflect upon recent performance and to reach consensus on identifying areas for improvement.

The self-assessment contained statements relating to Leadership & Relationships, Governance, Use of Evidence, Community Engagement & Participation, Focus on Outcomes, Use of Resources, Accountability, Performance Management and Reporting and Impact. This evaluation supported the partnership to gather the feedback required to strengthen the partnership and produce a collective and collaborative Improvement Action Plan as set out below.

Based on the responses submitted and a follow up session with LEP partners, the key improvement themes identified to enable successful delivery of LEP objectives were Governance, Performance Management and Reporting and Impact.

Progress on these improvement actions will discussed at LEP meetings and monitored and evaluated across the partnership, embedding the LEP as an effective strategic group aligned with the ambitions of No One Left Behind and delivering our local partnership vision of:

a collaborative, effective and easily understood employability and skills system, focused on positive outcomes which are flexible, person-centred and provide pathways to sustainable and fair work.

through our agreed objectives:

- To drive forward and implement the shared ambitions and actions of No One Left Behind to ensure the right support is available in the right way at the right time, with a focus on delivery of the Young Persons Guarantee within an all-age employability support service.
- To use a range of labour market data and evidence including the actual experience of service users to coordinate and inform decision making, identify priorities and support effective partnership delivery.
- To agree shared local governance to streamline the employability landscape, support collaborative working and coordinate resources to improve opportunities and outcomes.
- To set and monitor quality standards for employability provision and encourage compliance by providers.
- To encourage employers to adopt fair work principles and promote inclusive growth which is sustainable for people and planet.

Action Plan notes/Key

• Executive Group refers to a group comprised of the LA Employability Lead and chairs of the delivery subgroups working with a client reference group.
